崇寬
CHONG KUAN SHANGHAI

崇宽 CHONG KUAN SHANGHAI CO LTD - "Seller/Buyer Integrators"

WHO WE ARE

A robust and innovative trading integration company with more than **19 years experience** in trading with our headquarters based in Shanghai China. We have been helping successfully many Chinese factories to reach clients around the world to sell their products at very competitive prices.

WHAT WE DO

You probably already heard from us or the other big company in China offering this type of wholesale buying. Please ask anyone in your industry. Probably 1 out of every 5 companies are buying in this way because it works!

OUR GOAL

Chinese manufacturing companies and You, as our client, are both equally and fairly considered **our business partner** in this negotiation process.

We have partnerships with factories producing many types of articles, such as electronics, clothes, shoes, plastic bags and containers, glassware, glass jars and candle holders, carton boxes, plush toys, granite stone, kitchen cabinets and many more. **We select the right factory for your needs.** Sometimes clients require purchasing from big production facilities. Some others require factories near shipping ports to cut freight costs. No matter your specific needs, we will get it done right at the best price!

Every client has a specific need. But all of them want the best cost/benefit relationship. A curated balance between good competitive purchasing prices and quality and proactive service.

As many companies in Mainland China do not have an exporting department, they seek traders for help to export. But sometimes traditional traders increase price as high as possible, leaving the producer and end customer struggling.

HOW WE WORK

At **CHONG KUAN SHANGHAI CO LTD** we have a different approach: we provide bulk and wholesale prices to **YOU** like many other importers all around the world AS IF they would **purchase directly from the factory.** Most of the time the best purchasing price requires a buyer to order wholesale from 4 to 8 containers at a time depending on the type of product. Unfortunately, the great majority of buyers can't buy that much, and therefore lose on the negotiation table.

We solve this unbalance situation by gathering as many clients as possible for the same products. All purchases combined do get the best price

This way, buyers get what they want which is the **Big Buyers purchasing price.** On the other end, factories become competitive while we try to maximize their profit working together.

Our service for Seller / Buyer integration fee ranges from as little as 0.5% and up, averaging around 3% commission on all our successful integrations. We keep things transparent to our partners.

This is the reason why we keep growing successfully. We are not just simple traders. **We are seller/buyer integrators.** We match the optimal procurement relationship that serves both ends and thus, maximizing profits.

QUALITY IS IMPORTANT.

We also include third party independent quality inspections to meet your requirements. And we can provide full reports plus digital evidence (pictures and videos) before and while factory loads your items in your containers. For us it is crucial that you receive information in real time.

FORWARDING AND SHIPPING

We also include in our commitment to our partners some of the best forwarding services at industry's best competitive prices. So if you **need forwarding, shipping or freight** but with a price like the big guys, you can get them too.

IN SUMMARY

We hope you give your company the opportunity to work with us and get the competitive edge that we could bring to the table.

Just tell us about your procurement needs, quantities and purchasing cycles. We will get you the factory price. Then you decide.

NEXT STEP

Contact us now... send us an email... start what many other companies have already started.

Let's unite our strengths. Give it a try, we bet YOU WILL PROFIT FROM IT!

Our glassware selection for 2018 includes new and exciting products, from glass bottles, tableware, drinking glass, food containers and glass candle holders. We special include products for the Mexican candle market.

Our glassware selection suits the needs for hotels and restaurants, as well as home use. Depending on your requirements we can get different type of glass products and change its raw material composition and finish: From 100% recycled to high white, from colored and decal to plain transparent, from pressed to blown glass, from soda-lime to borosilicate, all our glass is safe to use and ecofriendly.

But of course, if none of these products suits your needs, you can send us a sample and we can replicate the product exactly as you need it.

And for packing we offer from pallets, corrugated box, PVC box, Windows box, color box, shrinking wrap and many others.

Our products pass CA65, FDA and LFGB norms and regulations. Our excellent quality and experience service have helped us to get a high reputation as a reliable and trustworthy partner for many buyers worldwide.
